

PROMATIX

Strives on technology

PROMATIX INDSOL PVT LTD

based out of Hyderabad,
is a young company catering
to the Indian engineering
and mining industry having
an array of Industrial Products.

incorporated by
passionate individuals
with vast experience
in Welding Products
consumables

Also specialized into
Automation & IT solutions
for various segments
includes Mining, Manufacturing, Chemicals,
Automobiles FMCG Metals & Non-Metals processing
centers with Supply chain management practices.

OUR SEGMENTS

- Manufacturing and Industrial ◀
- Pharma and Chemicals ◀
- Mining and Cement ◀
- Heavy engineering ◀
- Power plant ◀
- Construction and Infra ◀
- Educational industry ◀
- FMCG and Retail ◀
- Automotive segment ◀

ADDRESS:

Tulija Apartment, Road No.2, Mythri Nagar,
Hyderabad - 500 049, Telangana, India.

OUR SERVICES

“Specialised in providing welding & engineering industries with a comprehensive range of quality wearplates welding consumables & accessories.”

WEARPLATE, WELDING CONSUMABLES EQUIPMENT & ACCESSORIES

WEARPLATES is commonly a type of abrasion or Impact & Corrosion resistant steel plate hard faced by high hardness minerals & coating (by uniform weld bead (build- up) by special solid wire welding technique) that is considered extremely durable, especially under harsh conditions.

ELECTRICAL ITEMS SUPPLY & COMMISSIONING

Electrical fitting and material supplier. Flameproof electrical fittings for the Bulk Drug and Pharma Industry. Clean room electrical fittings. LED lights for bulk supply and real state projects.

SOFTWARE AND IT SOLUTIONS - ERP, TRACKING & TRACE

A well designed ERP solution has the ability to process information from every part of the organization, and any type of transaction, within a single, integrated-solution which can track-in real-time-business operations and provide timely, accurate information. Targeting Education, Hospitality, Industrial packaging, automobile etc.

SUSTAINABLE BIODEGRADABLE BAGS

Choosing Eco-friendly products directly helps & sustains our ailing environment. Eco friendly products reduce pollution and waste, require less energy & water to produce come from renewable resources, are created from waste products, so save biodiversity & habitats.

INDUSTRIAL PACKAGING CONSUMABLES, OPERATION CONTRACT

We do complete operation contract with all major segments including Manpower, Machineries and Consumables supply. Having joint venture with Packxpert India Hyderabad for technical collaboration. Tracking, Supply Chain and RTP (Returnable Transit Products) model is also possible.

“Incorporated by passionate individuals with vast experience in welding consumables and automation and IT solutions for a various segments.”

SPECIALIZATIONS:

WELDING

PIPL specialises in general purpose welding electrodes & MIG wire as brand name of PROMATIX HILTON & has a range of electrodes for the critical repair applications branded as PROMATIX in short PMI.

The range of the special electrodes can be used in the repairs of furnace, crane booms, heavy earth moving equipment, rigs gears, rigs etc.

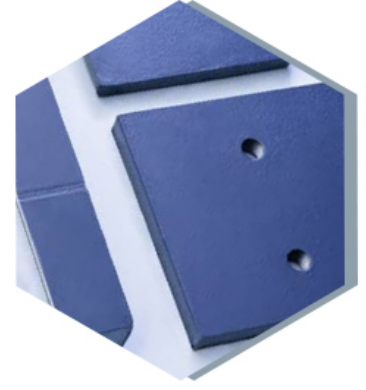

These electrodes have controlled grain structure as required & superb weldability for all types of steel & alloys & takes lower amperage.

PIPL has welding transformers, rectifiers, MIG, MAG & TIG machines under its gambit of products.

WEAR RESISTANT PLATES

PIPL produces PROMATS wear resistant plates/Liners as per the customer's requirement. The thickness can be from 3mm to 16mm base plate with a overlaying of 4 to 8 mm. The PIPL wear plates has evenly spread micro structure with hardness in the range of 58 to 65 HRC.

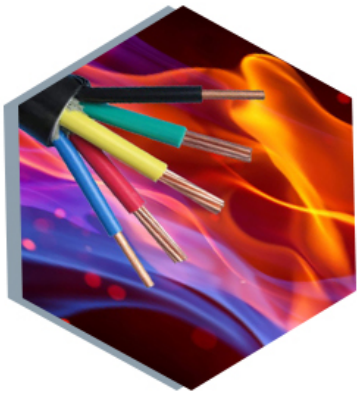

SERVICES

PIPL specialises and has dedicated team of qualified Engineers and Welders to undertake repairs of equipment like buckets, dumper bodies, crane booms etc. The repairs can be taken up at the site if required.

PACKAGING

PIPL has expertise in packaging, offers consultancy for both domestic & export market, to optimise the requirement of the packaging to save the money & manpower of the client. Each client has to be given a customised solution after studying the product and other factors.

PIPL believes in using new materials which are environment friendly & at the same time are economical and robust in nature to save the product from any eventuality during the transit. PIPL undertakes Packaging contracts & to execute it has a well trained & experienced team to carry out a quality job well in time. PIPL also supplies the all type of quality and reasonably priced packaging material.

FIRE RETARDANT PAINT

PIPL supplies and offers service for applying the fire-retardant paint. With the increase in the fire accidents, it is suggested to use the Fire retardant paint which is capable of stopping the fire at the very first instant.

GPRS DEVICE FOR THE VEHICLES

PROMATIX BRAND GPRS Device is a simple and very economically priced and ruggedly designed for a long service to the customer. The GPRS Device is a must in all the commercial vehicles as per the new law and also it gives complete information of the whereabouts of the vehicle to owner. The accuracy level of the device is 95 %.

OUR CUSTOMERS

“Customer service is our best strategy to win credentials and confidence.”
